ABOUT ME

I am a curious and ambitious software developer with a passion for web development and a focus on front-end development. I am committed to building user-friendly, effective, and maintainable web solutions and continuously improving my knowledge in this ever-evolving field. I am a team player, a quick learner, and looking for new opportunities and challenges to grow, apply, and further develop my skills in the professional setting.

EXPERIENCE

Web Development Intern

Teltonika Networks

Feb 2023 - May 2023

During this internship, I got familiar with and extended my knowledge of technologies and tools such as JavaScript, Vue, Bulma, Lua, Vitest, the internal Vuci framework, Git, and Linux. My daily tasks included:

- going through the theoretical material and applying the gained knowledge,
- developing a posts application and various other web interfaces for the router,
- developing a web application for the data upload and download speed determination that works with the Vuci framework used in RutOS,
- writing unit tests for the posts application.

EDUCATION

Web Development

Turing College

2024 - now

Informatics Engineering

Kaunas University of Technology

2019 - 2023

Specialization: Information Technologies and Cyber Security.
